Introducing StressFactor™

StressFactor™

StressFactor™ is a unique survey based analysis tool that identifies hidden stress within the workforce presented as a heat map through a digital dashboard.

STAYING CONNECTED AT HOME

The StressFactor™ assessment tool is an effective way to check, monitor and evaluate employee wellbeing whilst people are working remotely.

-  **Easy to use and distribute**
-  **Compatible on any device**
-  **Secure and scalable digital platform**
-  **Can be paused at anytime**
-  **Maximum of 30 minutes to complete**

“Excellent tool for establishing well-being within a Programme or Company, excellent statistics/data which made it easy to create a robust action plan as a result.”

Clare Bishop - HR Manager, Thales

WELLBEING IS EVERYBODY'S BUSINESS

The StressFactor™ survey identifies accidental and deliberate stressors in your business, providing managers with a greater understanding of the workforce and individuals. This enables them to **manage, motivate, communicate, negotiate** and **persuade** effectively.

Implementing a successful mental health strategy with the help of **A**PeopleBusiness improves:

-  **Employee Engagement**
-  **Business Productivity**
-  **Reduced Business Costs**
-  **Business Culture**
